Introduction

Welcome to the Pet Friendly shelter. These rules and regulations were established with the safety and wellbeing of your animals as the primary objective. We will also strive to make your stay as comfortable as possible and accommodate your special needs but our priority will always remain the animals you entrusted in our care. Please review the information enclosed and feel free to ask any of our staff members for clarification or mention any concerns that we should be aware of.

General Information

CARING FOR THE ANIMALS

Animal care (feeding, exercising and cleaning) shall be provided by the owners for each of their pets at their scheduled time. Special arrangements will be made for individual concerns such as administration of time sensitive critical medications (ex: meds for seizures, diabetes, and heart condition). Any medication not of a critical nature (ex: heartworm prevention, vitamins, allergies) should be given during scheduled appointments. All food, special diets, treats and any non-refrigerated medication shall be provided by and kept with the owners while at the emergency shelter.

The schedules were specifically designed in consideration for your pet's safety. Considerations were made to minimize contact between big dogs and small dogs, minimize the stress and potential health hazards by controlling the numbers of people and other animals walking past your pet's carrier location. For these reasons we must enforce the schedule times and count on your full cooperation.

Your pets will need quiet time to rest, and staff will need time to clean and organize. This time will be determined by shelter staff and visits with your pet may be limited for a short period during this time. Being in an emergency situation will be very stressful for you and your pets and we will do everything possible to help make it a less traumatic experience.

Despite the existence of this shelter, people who live in the emergency evacuation zone are strongly urged to make prior arrangements to go to the homes of friends and relatives who reside outside the area during declared emergencies. This is usually a more comfortable alternative for both people and pets than an evacuation shelter.

We have prepared answers to the following most commonly asked questions. If you have additional questions and/or concerns, please contact Indian River County Emergency Management, Indian River County Animal Control or the Humane Society of Vero Beach/Indian River County.
